Office Action Summary	Application No. 10/759,127	Applicant(s) LABONTE ET AL.	
	Examiner Anne Marie M. Boehler	Art Unit 3611	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Claims 1-5 are objected to because of the following informalities: Claim 1 must end in a period ".", not a comma.

In claim 2, line 2, "the lower frame members" lack clear antecedent basis in the claim. Also, "conventional" is unclear and should be deleted.

In claim 5, line 2, "conventional" should be deleted.

Appropriate correction is required.

2. Claims 6 and 7 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim may not depend from another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 6 and 7 not been further treated on the merits.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yapple (USPN 5,358,265) in view of McClure (USPN 3,908,780).

Yapple discloses a motorcycle with a powered lift stand 14-16 and safety system. The stand includes linear actuators 16, motors 18, gearbox 17, and limit switches 12 that signal extension and retraction of the linear actuators 16. The adjustable bracket shown in Figure 10 allows attachment to multiple motorcycle frame configurations.

Yapple lacks a starter switch disabling means.

McClure teaches a motorcycle safety system that disables the starter switch 13 when the kickstand is down.

It would have been obvious to one of ordinary skill in the art to provide the Yapple vehicle with a means for disabling the starter switch, as taught by McClure, in order to prevent the rider from driving the motorcycle with the kickstand down.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Bernocco, Andrews, Kioke, Gratza, and Kouyama each show a motorized kickstand.

Kuan shows a motorized linear kickstand.

Nakazawa, Togashi, and Strasser teach drive disabling devices

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anne Marie M. Boehler whose telephone number is 571-272-6641. The examiner can normally be reached on 7:30-5:00, Monday-Thursday, and alternate Fridays.
